KABLAM!

VIDEO GAME

Picture this! An evil plot is afoot at the state prison! Jimmy the Arsonist is at it again with his home made bombs! He wants to break free and reek havoc across the city. Fortunately, you, the prison guard, can stop him. With only a bucket of water, you can diffuse his bombs along with his evil plot and save everyone. But how?

INSTRUCTIONS

How To Operate Your Portable Video Computer:

Hold the small button on the side of your device until you see the “splash screen”. It will open to your device’s main screen. No keyboard or mouse? No problem! This device is operated by touch! Go to the “app tray” by swiping up from the bottom, then find the app “Kablam!” Now your ready to play!

Main Menu:

In the main menu, you will see the box art, along with an Atari dashboard. It has 4 buttons, and here are their functions:

- Power Button: Quits program.
- Start Button: Begins game.
- Manual Button: Shows manual.
- Select Button: Switches between high score and main menu.

Game:

To play, you must drag the bucket across the bottom of your screen. As soon as you do this, Jimmy the Arsonist will start dropping bombs and you have to catch them with your bucket. You will gain points as you catch the bombs, but beware... Jimmy will get angry with you and he’ll drop bombs even faster!

Troubleshoot:

If this game doesn’t work, try resetting you device by powering it off and on again. If this doesn’t work, please consider what device your using. This was made to be Android compatible. If you are not using an Android compatible device, such as an Apple device, or any other brand of non-Android compatible devices, then it will NOT work. Luckily, this program was distributed as freeware, so there is no need for a refund. ATTENTION, if you bought this, then you were scammed!
